

## SHOOTS AND KILLS INDIAN COMPANION

### Jack Longstreet Has Quarrel With His Prospecting Partner and In Fight Shoots Him Twice.

Word was received in Tonopah yesterday that Jack Longstreet, one of the old-timers of this county, and well known throughout the state, shot and killed an Indian near Belmont, sometime Friday evening.

Particulars are meager, but from a telephone message received from Manhattan last night it is learned that Longstreet and the Indian left Belmont Friday evening for his mines. They were both more or less under the influence of liquor, and after getting a short distance out of town began quarrelling and finally came to blows. As the story goes, Longstreet was getting the worst of it when he pulled his gun and shot the Indian twice, the wound that caused death being inflicted in the abdomen.

## GOLDFIELD GIVES BIRTH TO INSURGENT LEAGUE

### Will Support Oddie for Governor and Assist Those Who Are Opposed to the Southern Pacific.

On Thursday night, in Goldfield, there was born the Lincoln-Roosevelt League of Nevada—in other words, the Insurgent Republican party. Senator Harry A. Moorehouse was made president of the league, Arthur Weber, first vice president, and J. G. Thompson, second vice president.

Beginning about September 1 the league, it is stated, will be well organized all over the state, and will put out several speakers and then there will be a whirlwind canvass of the state, from north to south, east to west. It is probable that several of the noted California insurgent workers will come across the line and do some heavy work in the northern part of the state in particular. "Lighthouse Harry" Morehouse will be one of the campaigners for the league, and will go north in a few days to actively engage in the campaign against what it terms the boss rule of the Southern Pacific.

The league, it is understood, will support the candidacy of T. L. Oddie for governor because of his clean record.

The purposes of the league, as set forth in article 2 of its by-laws are as follows:

To reform the methods of the nomination, selection and election of public officers in the several counties and throughout the state of Nevada, and to overthrow and defeat the political methods of the Southern Pacific Railway company and all other corporations, in the control of the Republican party, and to purify and correct "bosses" and "bossism" in the Republican party, and make the Republican party strictly and wholly a party of the people, free from the control and domination in any form or any manner of the Southern Pacific company, and all other corporations, and to unite and bring together all Republicans who are willing to pledge themselves to drive the Southern Pacific company, and

## HAS RICH ORE AT JARBIDGE

E. A. Richardson, of this city, seems to be getting into the money in his Jarbidge operations. He and James McCoy are the owners of the famous "crater" discovery. The latter is quoted as follows by the Reno papers:

"It is so rich that we cannot compute the amount. The crater is undoubtedly one of the biggest gold discoveries ever made."

Some of the samples from the "crater," taken at Twin Falls, Ida., by William Pitney, are almost pure quill. The vein containing the rich seam is several feet in width and is of shipping value.

Colorado capital is being interested in Jarbidge and this Elko county camp promises to be heard from in no uncertain tones before the season is ended.

Fresh milk and cream—Tonopah Dairy.

Will preach on labor.

By special recommendation of the Convocation of the Episcopal Church of Nevada, the clergy are requested to preach on the cause of labor, Sunday, September 4, the day preceding Labor day. Accordingly the rector of St. Mark's extends a general invitation to all labor organizations to attend divine service, and to hear a sermon on some topics of general interest to laborers, and to labor organizations. Further announcements will be made as opportunity offers, and every effort will be put forth to emphasize those humane principles which should characterize industrial progress in this great republic.

## PROSECUTION'S EVIDENCE IS NEARLY ALL IN

In the White murder case, on trial in the district court, the prosecution put three witnesses on the stand yesterday. Those called were R. T. Lance, H. J. Knappe and T. A. Patterson. The latter's testimony was to the effect that White came to his cabin a short time before the shooting and borrowed a shotgun with which the crime was committed. White stated that he wanted the gun to protect himself; that he would not permit Black to run over him.

The testimony of Lance and Knappe substantiated the testimony of John Beck, who was on the stand Friday afternoon, in many particulars, but in some of their details there appeared to be a conflict.

The deposition of Dr. McIntyre, who performed the autopsy on the body of Black, was also read.

It is stated that the prosecution has one more witness to put on the stand, then the defense will follow. Probably by Tuesday night the case will go to the jury.

"Come on to the Grass" signs have been placed in certain of the New York city parks—an innovation which fills the hearts of children with joy. It is a pity that such signs are not more common.

## WATER STRUCK IN THE LITTLE GREY

Walter Lamb received a hundred ounce bar of gold bullion yesterday as the result of a few days' run on ore from the Lamb lease on the Little Grey property at Manhattan.

Word has also been received in town that water had been encountered in the shaft of the mine at a depth of about 210 feet, and that it is coming in in such quantities that it is believed there will be enough for milling purposes, and if it continues to come in it is more than likely that the leasing company which is operating the mine will move the mill from its present location to the ground where operations are being pursued, thus doing away with the expense of freighting ore, which amounts to considerable in a month's time.

### NO FRENCH DOMINATION.

A Reno merchant, returning from the East with a stock of ladies' wear, reports that the hobbles have been taken off the gowns.

'Tis well. American designers might have been depended upon to save the honor, as well as the appearance of the nation. The Frenchman that was to have designed the uniforms for the American soldiers and jacksies has also been eliminated. This is and will continue to be a free nation in garb as well as in government.
